

Public Health Reporting Service For Eligible Hospitals

ILHIE

ILHIE Streamlines Public Health Reporting

Streamline Your Reporting to the Illinois Department of Public Health (IDPH)

The Illinois Health Information Exchange's (ILHIE's) Public Health Reporting service allows hospitals to submit public health data through a single connection.

Conveniently, one connection facilitates reporting to three systems:

- Syndromic Surveillance Reporting to BioSense
- Electronic Laboratory Reporting to I-NEDSS
- Immunization Registry Reporting to I-CARE

ILHIE has a Secure Connection to IDPH Systems

Hospitals without an existing connection to IDPH are required to submit public health data using the ILHIE to achieve meaningful use. Hospitals typically rely on time intensive, manual public health reporting processes for reporting meaningful use that can lead to data being incomplete and creating delays in submission. To help alleviate this, the ILHIE and IDPH have collaborated to streamline reporting by developing a central hub for submissions.

Establish a Secure Connection to IDPH

Public Health Reporting Service For Eligible Hospitals

ILHIE

Improving Care and Managing Population Health

ILHIE's Public Health Reporting service will assist IDPH in capturing timely, complete and high quality data from hospitals to conduct analytics. Providers benefit from access to actionable, data-driven information that can be used to guide clinical decision-making and support better health outcomes in their community.

Connect Now!

- To establish a secure connection to IDPH, contact ILHIE at HFS.PHMU@Illinois.gov
- Register your intent to submit public health data for meaningful use at <https://murs.illinois.gov/>
- Public Health Reporting is a federally funded initiative, until further notice this service is available to hospitals at no cost
- Hospitals do not need to subscribe to other ILHIE services to benefit from ILHIE's Public Health Reporting service
- Hospitals may receive technical support from ILHIE and IDPH staff

ILHIE Services

Improve Patient Care, Save Time and Lower Costs with ILHIE's HIPAA-compliant services.

- **ILHIE Direct** - A web-based, secure messaging solution
- **Integrated Direct** - An EHR-integrated, secure messaging solution
- **Public Health Reporting** - A streamlined, secure connection to IDPH for Eligible Hospitals to submit meaningful use data
- **ILHIE Connect** - A secure, aggregated, health record request and retrieval service
